A glimpse of SAIL's increasing role as a responsible corporate citizen :-

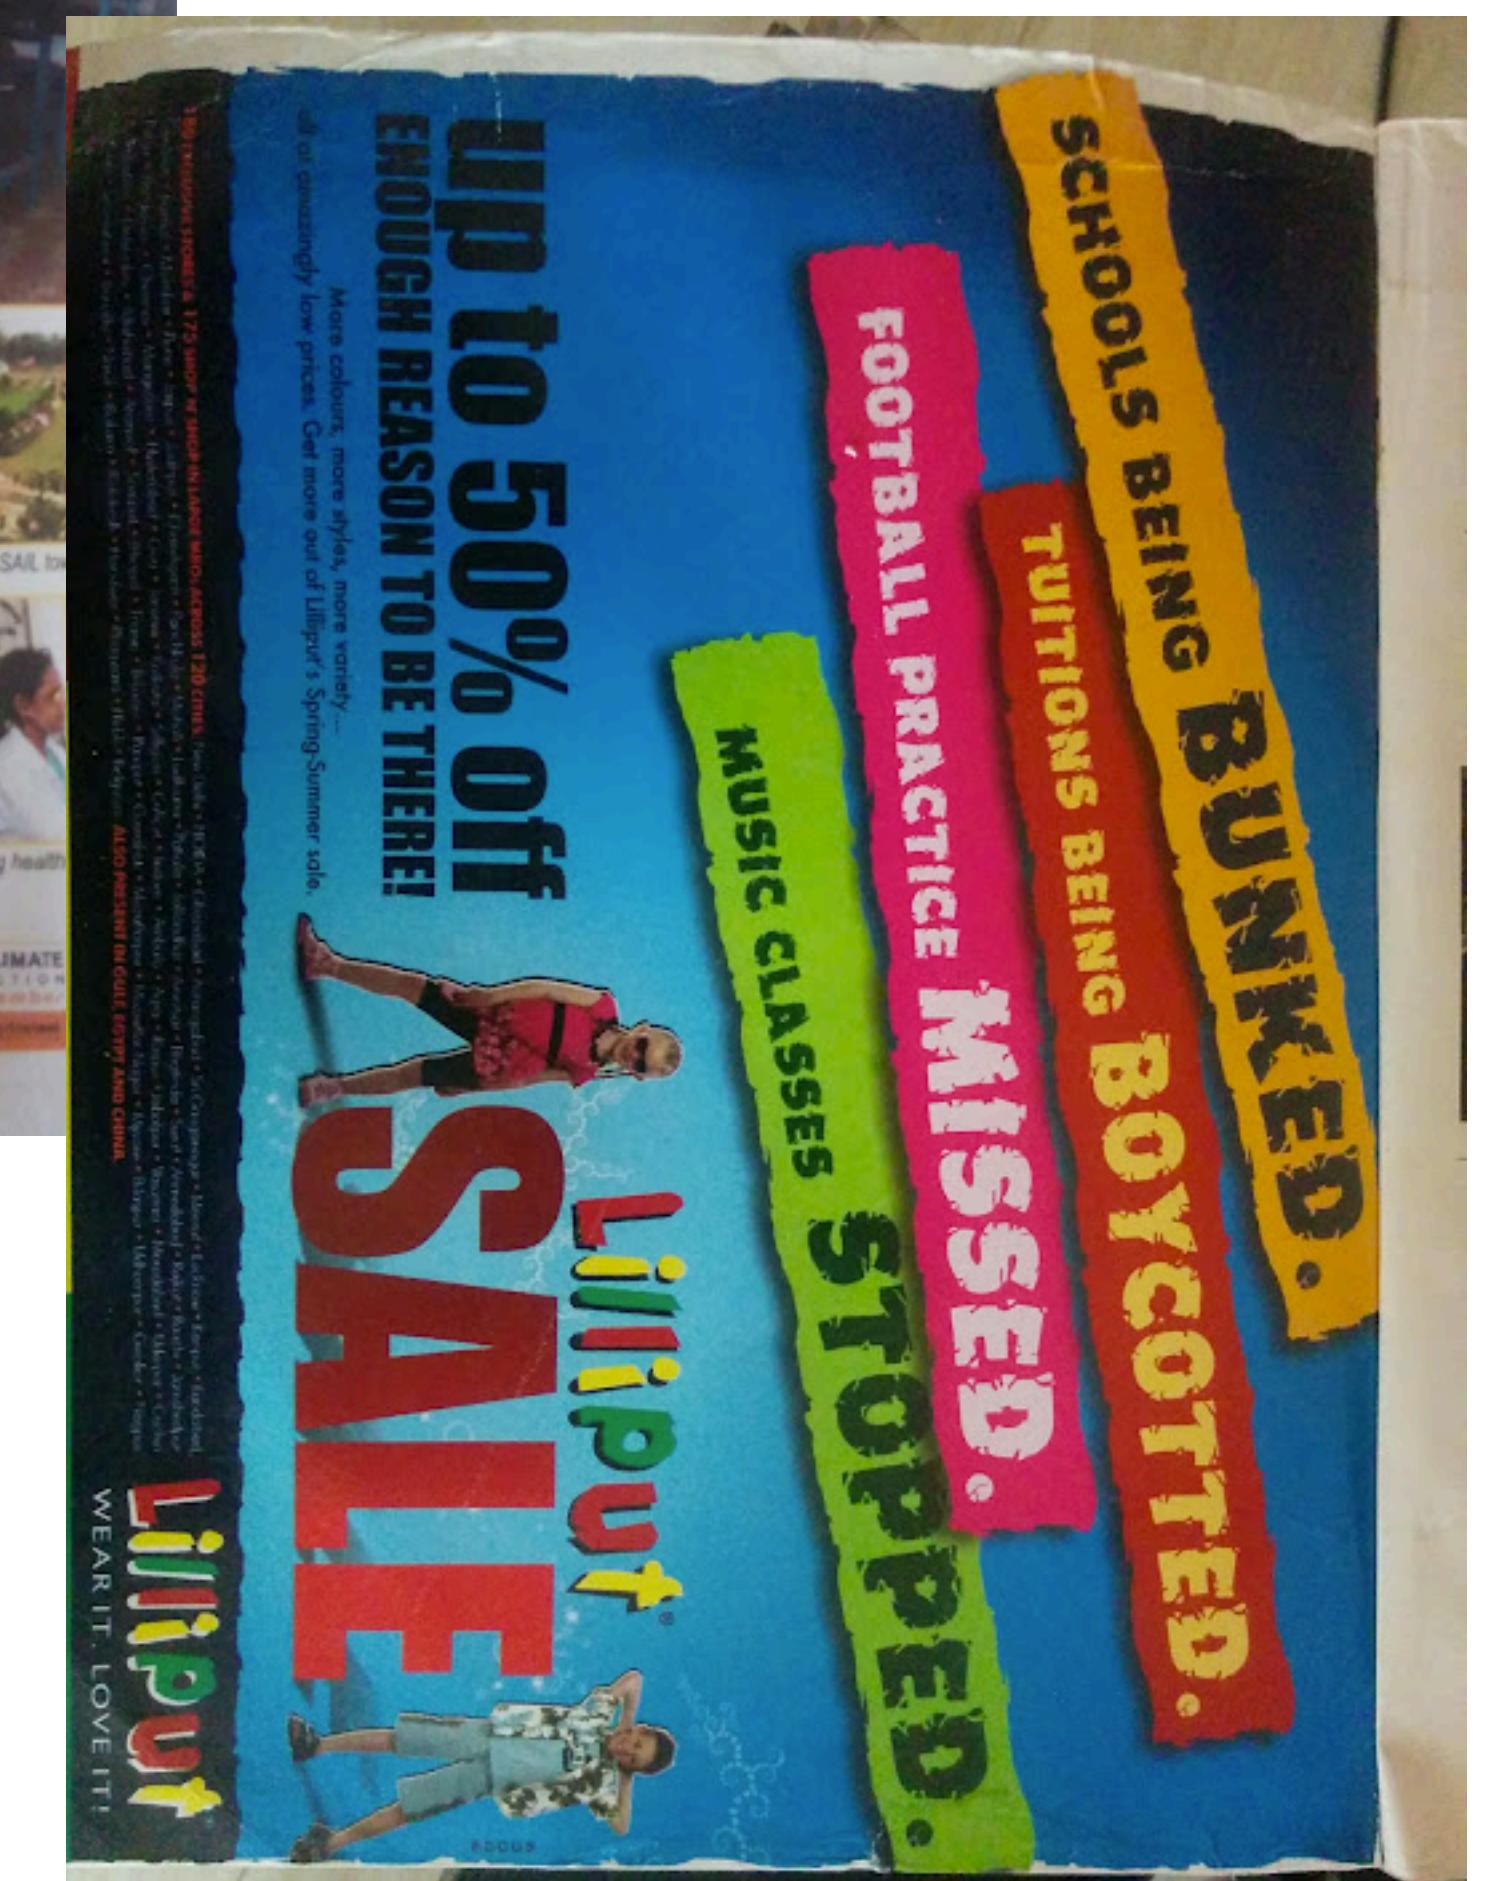

- Environment - Energy consumption optimised, water conservation, effluent treatment and waste recycle/reuse intensified. 71 projects have been identified to secure carbon credit through Clean Development Mechanism (CDM), thereby helping to reduce global warming. Greening efforts continue — over twenty million trees planted so far.
- Education - 138 company-run schools with 90% student retention and 1:1 ratio of girls and boys.
- Health - Running 18 hospitals & 6 speciality hospitals in SAIL townships and healthcare programmes in other parts of the country also, efforts have lowered Infant Mortality Rate and Maternal Mortality Rate below national average.

CLIMATE ACTION
SAIL has been involved in climate action since 1994. It has taken several steps to combat climate change, including the implementation of energy efficiency measures, the promotion of renewable energy sources, and the participation in international climate negotiations. SAIL has also committed to reducing its greenhouse gas emissions by 20% by 2030 compared to 2014 levels. The company has invested in wind power projects and is exploring opportunities for solar power generation. SAIL is also working to improve its waste management practices and reduce its environmental footprint.
